## Policy on engagement with the Tobacco Industry

1. The Institute for Health Economics and Policy (IHEP) is an independent, non-profit organization established in 2008. Its primary purpose is to conduct research and provide policy advice on health economics and public health. IHEP is funded by the Department of Health and Social Services (DHSS) and the Department of Health and Human Services (DHHS). IHEP is a registered charity and is governed by a board of trustees. IHEP's research is funded by the DHSS and DHHS, and is conducted in accordance with the highest standards of academic integrity and ethical conduct. IHEP's research is published in peer-reviewed journals and is made available to the public through its website. IHEP's research is used by the DHSS and DHHS to inform their policy-making process. IHEP's research is also used by other organizations and individuals who are interested in health economics and public health. IHEP's research is a valuable resource for the public and for the DHSS and DHHS.

"In setting and implementing their public health policies with respect to tobacco control, Parties shall act to protect these policies from commercial and other vested interests of the tobacco industry in accordance with national law".

3. The Institute for Health Economics and Policy (IHEP) is an independent, non-profit organization established in 2008. Its primary purpose is to conduct research and provide policy advice on health economics and public health. IHEP is funded by the Department of Health and Social Services (DHSS) and the Department of Health and Human Services (DHHS). IHEP is a registered charity and is governed by a board of trustees. IHEP's research is funded by the DHSS and DHHS, and is conducted in accordance with the highest standards of academic integrity and ethical conduct. IHEP's research is published in peer-reviewed journals and is made available to the public through its website. IHEP's research is used by the DHSS and DHHS to inform their policy-making process. IHEP's research is also used by other organizations and individuals who are interested in health economics and public health.
